### PROFILE

I am Jia Cheng Hu, a 3D Generalist based in New York. I am equipped with the following skills:

- Modeling both hyper-realistic and stylized characters and assets.
- Utilize various software such as Maya, Zbrush, Nuke, etc.
- Having a great sense of lighting setup and camera position.

With my creative skills and solid knowledge of different programs, I will be a great asset to your team and quickly blend into the working environment.

---

### A LITTLE ABOUT MYSELF

I enjoy helping people. Not only because of the smile when their problems are solved, but also the chances to learn things I had never encountered. I come to New York to learn about arts, how to become a great artist, and, more importantly, how to bring positive value to a community. I served in a church teenager fellowship when I was back in Taiwan. From scheduling to cleaning, the more jobs I do, the more I realize it is not easy to serve people. When they come with issues I never heard about before and expected me to help, I know it is time I step out of my comfort zone and learn. I will bring the same enthusiasm to the job, and I believe I would make an excellent addition to your team.
